TABLE OF CONTENTS

- 1 Logo
- 3 Easyrehabexercises.com
- 7 Webinar/online course on the sleep apnea
- 9 My physiotherapy curriculum
- 14 Table of Contents
- 18 Introducing TMJ
- 20 Hygiene rules to be respected when evaluating the TMJ
- 22 Synthesis table
- 23 TMJ muscles
- 25 Synthesis table
- 27 Suprahyoid muscles
- 28 Infrahyoid muscles
- 29 Synthesis table
- 31 The teeth
- 32 Biomechanics and arthrocinematic of the TMJ
- 33 Posture and relation with TMJ

TABLE OF CONTENTS

- 34 Evaluation of the TMJ (subjective)
- 35 Evaluation of the TMJ (objective)
- 37 Specific tests
- 38 Relation with the dental practice
- 39 Temporomandibular physiotherapy : an alternative treatment for the obstructive sleep apnea?
- 40 Sleep apnea
- 41 The obstructive sleep apnea
- 42 The central apnea
- 44 The syndrome of hypoventilation / hypoxia of the sleep
- 45 How does the obstructive sleep apnea affect your breathing?
- 47 Prevalence
- 48 The obstructive Sleep apnea risk factors
- 49 Clinical demonstrations of the obstructive sleep apnea during the state of awakening.
- 51 The results for health
- 52 The sleep apnea screening with the overnight oxymetry
- 53 Overnight oxymetry example

TABLE OF CONTENTS

- 57 The diagnostic instrument: polysomnography
- 58 Polysomnography example
- 64 Main available treatments (other than physiotherapy)
- 66 The C-PAP
- 69 Dr. Peter Edmison, dentist
- 74 Advanced mandibular orthese
- 76 Exclusion criteria for the treatment of the OSA in temporomandibularphysiotherapy
- 77 Subjective evaluation of the OSA syndrome (OSAS)
- 79 Epworth scale for the diurnal somnolence evaluation
- 81 Objective evaluation of the OSA syndrome (OSAS)
- 83 Temporomandibular (and other related regions: neck, throat and head) specialization can help you
- 84 The obstruction of the respiratory tracts
- 85 Temporomandibular (and other related regions: neck, throat and head) specialization can help you

TABLE OF CONTENTS

- 86 The muscles of the tongue
- 88 Temporomandibular (and other related regions: neck, throat and head) specialization can help you
- 89 International studies supporting physiotherapy as a way to treat sleep apnea
- 90 Evaluation of the therapeutic method in TMJ physiotherapy on mild, moderate and severe OSAS cases extending from 2011 till 2014
- 98 Case study of a subject with severe OSAS without C-PAP: the preliminary results after 10 physiotherapy treatments
- 101 Follow up about the subject #1 after polysomnography et oximetry
- 102 Preliminary results of the study on the Obstructive Sleep Apnea 2011-2014 for the first 5 subjects
- 110 Procedures to receive these specialized obstructive sleep apnea physiotherapy treatments
- 111 Bibliography
- 112 My coordinates
